Informed Consent for Acupuncture

I understand that I am the decision maker for my health care. I understand that Dr. William E. Leigh III DAOM AEMP (Dr. Leigh) is responsible to provide me with information to assist me in making informed choices. This process is often referred to as 'informed consent' and involves my understanding and agreement regarding the care recommended, the benefits and risks associated with the care, alternatives, and the potential effect on my health if I choose not to receive the care.

I hereby request and give consent for Dr. Leigh to perform acupuncture treatments and other procedures within the scope of the practice of acupuncture on me (or on the patient named below, for whom I am legally responsible).

I understand that acupuncture is not intended to substitute for diagnosis or treatment by medical doctors or to be used as an alternative to necessary medical care.

I understand that methods of treatment are not limited to but may include:

1. Acupuncture as non-surgical, non-incisive insertion of disposable needles in specific locations on the body.
2. Acupuncture with electrical stimulation.
3. Laser acupuncture.
4. Moxibustion, as a burning herb and heat therapy at acupuncture or points are general areas.
5. Qi gong, or non invasive energy medicine at acupuncture points.
6. Dry needling.
7. Injection therapy.

I appreciate that it is not possible to consider every possible complication to care. I have been informed that acupuncture is generally a safe method of treatment, but, as with all types of healthcare interventions, there are some risks to care, including, but not limited to: bruising, numbness or soreness near the needling sites that may last a few days; and dizziness or fainting.

Unusual risks of acupuncture include nerve damage, and organ puncture, including lung puncture (pneumothorax). Infection is another possible risk. I understand Dr. Leigh uses sterile disposable needles and maintains a clean and safe environment.

I understand that while this document describes the major risks of treatment, other side effects and risks may occur.

I understand that it is my responsibility to inform my clinician if I've ever experienced any of the following: fainting; seizures; bleeding disorder, taking prescription anticoagulants or any other medication; damage to a heart valve or any cardiac pathologies; and increased risk of infection.

While I do not expect the clinical staff to be able to anticipate and explain all possible risks and complications of treatment, I wish to rely on the clinical staff to exercise judgment during the

course of treatment which the clinical staff thinks at the time, based on the facts then known, is in my best interest. I understand that results are not guaranteed and there is no promise to cure.

I understand that in the event that my condition is such that treatment is beyond the normal capabilities of the Acupuncturist, I understand that I may be referred to other competent practitioners including, but not necessarily limited to, medical physicians. I also understand that I have the right to a second opinion and to secure other options about my circumstances and healthcare as I see fit.

I have read, reviewed, understand, and agree to the above consent to treatment, have been told about the risks and benefits of acupuncture and other procedures, and have had an opportunity to ask questions. I agree with the current or future recommendations for care. I intend this consent to cover the entire course of treatment for my present condition and for any future conditions for which I seek treatment. I understand that I can refuse treatment at any time.

BY SIGNING BELOW I AM AGREEING THAT I HAVE READ, UNDERSTOOD AND AGREE TO THE ITEMS CONTAINED IN THIS DOCUMENT.
